

ΟΠΤΙΚΟΣ ΟΔΗΓΟΣ ΕΓΚΑΤΑΣΤΑΣΗΣ WinSERVER 2003

MS Windows 2003 Server

Οθόνες εγκατάστασης

Greater Productivity

The Windows Server 2003 family is now easier to deploy, manage, and use.

Administrators benefit from an improved management experience, including new Active Directory features for more flexible design and deployment.

End-users benefit from technologies such as the Volume Shadow Copy service, which allows them to recover earlier versions of their own files.

With the Windows Server 2003 family, users and administrators can do more, with less time and effort.

Setup will complete in approximately: 39 minutes

Personalize Your Software

Setup uses the information you provide about yourself to personalize your Windows software.

Type your full name and the name of your company or organization.

Name:

Organization:

Setup will complete approximately: 33 minutes

Licensing Modes

Windows Server 2003 supports two licensing modes.

Select the licensing mode you want to use.

Per server. Number of concurrent connections: . Each connection must have its own Client Access License.

Per Device or Per User. Each device or user must have its own Client Access License.

To avoid violation of the License Agreement, use Licensing (which is located in Administrative Tools) to record the number of Client Access Licenses purchased.

Date and Time Settings

Set the correct date and time for your Windows computer.

Date & Time: Thursday, April 22, 2004 12:35:50 PM

Time Zone: (GMT+02:00) Athens, Istanbul, Minsk

Automatically adjust clock for daylight saving changes

Regional and Language Options

You can customize Windows for different regions and languages.

Regional and Language Options allow you to change the way numbers, dates, currencies and the time are displayed. You can also add support for additional languages, and change your location setting.

The Standards and Formats setting is set to English (United States), and the location is set to United States.

To change these settings, click Customize.

Text Input Languages allow you to enter text in many different languages, using a variety of input methods and devices.

Your default text input language and method is: US keyboard layout

To view or change your current configuration, click Details.

Your Product Key

Your Product Key uniquely identifies your copy of Windows.

Please see your License Agreement Administrator or System Administrator to obtain your 25-character Volume License product key. For more information see your product packaging.

Type the Volume License Product Key below.

Product Key: - - - -

Computer Name and Administrator Password

You must provide a name and an Administrator password for your computer.

Επιλέγω ισχυρό password

Setup has suggested a name for your computer. If your computer is on a network, your network administrator can tell you what name to use.

Computer name:

Setup creates a user account called Administrator. You use this account when you need full access to your computer.

Type an Administrator password.

Administrator password:

Confirm password:

Improved security

The Windows Server 2003 family delivers enhanced security with Internet Information Services 6.0, which offers restricted, safer functionality by default, SmartCard authentication, and improved security technologies to protect your infrastructure.

Setup will complete in approximately: 31 minutes
